Make 20

5. Stitch a strip on to the left side of your quilt top, using the border around this page as a guide for orientation. In the same way, add a strip to the right side of your quilt top.
6. For the corners, stitch together a Background B and Light B to make a Half Square Triangle Block. Make 4 ea. 4 1/2" HST Corner Blocks.
7. Lay out your top and the two remaining borders. Again using the border of this sheet as a guide, add the HST Blocks to the short edge of each border then add the borders to the top and bottom of your quilt top. The quilt top should now measure about 48 1/2".

NOTE: *If desired, you can play with your blocks to create a different design. One possibility is shown at right. This has all the blocks oriented in the same way, with the dark edge against the quilt center and whole squares in the corners.*
