

Our 2013 Block of the Week

Fanciful Floral FourSquare

Block 41 November Cornucopia

We are changing gears a bit for this month's block. We are NOT doing four quadrants... This block can have a single Background (Cut at 13" to finish at 12") OR be assembled from four 7" squares to end up with a four Quadrant background like your other blocks. Either way, the motifs will be appliquéd to the completed block. I will be giving you the motifs this week and next week. So WAIT til you get all the motifs before appliquing anything in place, but you can start the prep of this Cornucopia.

Prep the Cornucopia for appliqué but do NOT appliqué til next week's motifs and placement are given. Also prepare your background as one square or four as you wish...
