Reverse Applique:

I used a little reverse appliquéd on this one. I prepared the fused snowflake from White using the pattern given. Then I cut a Gold 4" circle and a Green 1" circle (Dashed Lines) both without fusible. I centered the Green on the Gold circle centered atop the background square. Then I fused the Snowflake centered on top of it all. The fusing catches all of it! Then stitched as usual.

Note the block on the left is turned to have snowflake points on NESW. The block on the right has the points as in the pattern lay out. Choose which you like best.
