

Heart Christmas Tree Ornament

From LynBrown.com - The Second in our 2014 Ornament of the Month Series

Supplies:

10" Fabric Square

24" of Rick Rack (I used the small RR I had on hand but any size would do)

12" of White Ribbon

Stuffing

Assembly:

1. Cut out two hearts using the Template given.
2. Starting at the bottom of the heart, baste the RR in place on the right side of one of the hearts so the edge of the RR is at the edge of the heart as shown. Note that I ran my stitches just to catch the "tips" of the RR about an 1/8" (might be larger if using larger RR) in.
3. Fold the ribbon length in half and pin in place at the cleft of the heart and the ribbon laying against the heart as shown. Note that I placed my ribbon with the fold at the cleft so I was able to tie a bow. The other option is to place the raw edges at the cleft for just a loop without the bow.
4. Next place the two hearts Rights Sides Together with the basted one on top and stitch a 1/4" seam (might be larger if using larger RR), leave opening to turn.
5. Turn and stuff. Slip stitch the opening.

Have A Wonderful Valentine's Day!
