## Block 16—Surf City Boards (21 1/2" X 15 1/2")

Page 1 of 2

Note that there are three distinct surfboard designs given at right. Following the Diagram/Block Photo given, make one board that has the Chevron design in the center, one board with the bottom portion in two different colors and then the last board would have that long swirl along its length. On the next page, along with Assembly Instructions, is the Template for the wave to be placed at the bottom of the block and the bottom of the boards get tucked beneath the wave.
